Portfolio: <https://itsghost01.github.io/Portfolio/>

SUMMARY

Computer Science undergraduate (AI major) with hands-on experience in UI/UX design and frontend development. Familiar with Python, basic data analysis concepts, HTML, CSS, JavaScript, Tailwind CSS, Figma, and WCAG accessibility standards. Currently completing MERN stack training. Focused on building clean, responsive, and user-centered web applications.

PROJECTS

Dyslexia-Friendly Text Summarization with Text-to-Speech | *Figma, HTML, CSS, JavaScript, React* [Link](#)

- Led UI/UX design and frontend development for an accessibility-focused web application (Capstone Project).
- Designed wireframes, interactive prototypes, and responsive interfaces in Figma; validated 10+ user flows.
- Implemented WCAG 2.1 accessibility standards to improve readability for dyslexic users.
- Collaborated with backend team to integrate text summarization and text-to-speech APIs into the frontend.

Paw-Pal — Pet Adoption Web App | *HTML, CSS, Figma*, [Link](#)

- Designed complete UI system including branding, logo, typography, and color palette from scratch.
- Developed responsive frontend with focus on usability and performance; tested and validated 10+ user flows.
- Created sitemap and multiple UI screens to define a structured, intuitive user flow.

EVO-Map — Mobile App Prototype | *Figma* [Link](#)

- Created full UI/UX design including wireframes and interactive prototypes.
- Designed 20+ screens maintaining consistent design system and user experience.
- Focused on intuitive navigation and mobile-first design principles.

Student Management System | *MERN Stack (React, Node.js, Express, MySQL, Sequelize)* [Link](#)

- Developed a full-stack Student Management System with secure authentication and role-based access control.
- Built RESTful APIs using Express.js and Sequelize ORM to manage students and courses with complete CRUD functionality.
- Developed a responsive frontend using React, TypeScript, Tailwind CSS, Material UI, and React Hook Form.
- Implemented search, filtering, sorting, and course-based filtering to improve data management and user experience.
- Integrated Cloudinary for image uploads and optimized profile image management.
- Used Postgres for relational data storage and Sequelize associations to manage student-course relationships.
- Added form validation, loading states, and toast notifications to enhance usability and application responsiveness.
- Deployed the frontend on Netlify, Neon for database and the backend on Render using environment-based configuration.

MS-Store E-Commerce Platform | *React, TypeScript, Tailwind CSS, Node.js, Express, Sequelize* [Link](#)

- Developed a full-stack e-commerce platform with secure authentication, role-based access control, and RESTful APIs.
- Built responsive user and admin dashboards for managing products, categories, orders, users, and inventory.
- Implemented product search, filtering, shopping cart, checkout, and order management features to enhance user experience.
- Integrated PostgreSQL, Sequelize ORM, Cloudinary, and JWT authentication with form validation and protected routes.
- Used Git/GitHub for version control and Docker for development and deployment.

Meddical — Hospital Management CMS | *Next.js, TypeScript, PostgreSQL, Drizzle ORM, Better Auth, Tailwind CSS* [Link](#)

- Built a responsive frontend using Next.js, TypeScript, Tailwind CSS, and reusable UI components.
- Implemented image upload and management functionality for hospital content, allowing administrators to upload and update images through the CMS.
- Implemented secure authentication and protected admin functionality using Better Auth with role-based access control.
- Designed and integrated PostgreSQL database functionality using Drizzle ORM for structured data management.
- Developed an admin dashboard to manage hospital-related content and improve content management workflows.
- Configured environment variables and deployed the application for production.

EDUCATION

Bachelor of Computer Science (Hons) — Major: Artificial Intelligence *Jan 2023 – Present*
Taylors University / IIMS College, Kathmandu | GPA: 3.26 / 4.00
Coursework: Data Structures & Algorithms, Advanced Programming, Database Systems, Web Application Programming, Data Analysis & Machine Learning

SKILLS

Design: Figma, Adobe Photoshop, Adobe Illustrator, Canva — Wireframing, Prototyping, Branding, Graphic Design, Logo Design
Frontend: HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, React, Basic Typescript
Backend & Dev: Node.js, MySQL, PostgreSQL, Express, ORM — VS Code, Git, GitHub, Docker Basics
AI Tools: Claude, Antigravity, Claude Code, Cursor, Make, GitHub Copilot, Claude Design, Perplexity, Opencode

CERTIFICATIONS & TRAINING

MERN Stack Development — Mindrisers Institute *April 2026 – July 2026*
UI/UX Product Design Bootcamp — Udemy *Jan 2025 – March 2025*
Graphic Design — Broadway Infosys *Feb 2025 – May 2025*
German Language B1 Level — Goethe Institute *Oct 2021 – April 2022*

LANGUAGES

English (Fluent) | Nepali (Native) | Hindi (Fluent) | German (B1 Level)

ACHIEVEMENTS & ACTIVITIES

- Designed posters and event graphics for college programs, applying practical graphic design and layout skills
- Created logo designs, social media posts, banners, and branding concepts through personal practice projects
- Developed wedding invitation card designs for real-life family events, focusing on clean and creative visual presentation
